EDUCATION

Bachelor of Industrial Technology (Comp Tech)

BULACAN STATE UNIVERSITY

2021-2024

A hands-on technology program specializing in computer hardware, software applications, troubleshooting, and basic networking, designed to prepare graduates for technical and IT-support roles in industrial and business environments.

Information, Communication, and Technology

ABE INTERNATIONAL BUSINESS COLLEGE

2019-2021

Finished the ICT strand with a strong focus on computer literacy, digital tools and basic technical skills. Gained experience in using software applications, understanding hardware components, and working with technology in academic projects.
